

THE HOMESCHOOL RESOURCE ROADMAP COMMON CORE PROJECT

EXPLICITLY ALIGNED (changing and/or writing content for CCS/NGSS/C3)

These companies - listed in alphabetical order - have indicated that they have chosen to EXPLICITLY ALIGN their materials with the CCS/NGSS/C3.

Some have made relatively small changes, and others have completely overhauled their products - or were even initially created based on the initiative. However, in all cases, conscious content changes were made to accommodate the CCS/NGSS/C3.

That said, it **must** be noted that the list simply indicates each company's position relative to the CCS/NGSS/C3. The coordinator of the research project does **not** endorse or reprove the use of any of these products and resources; it is up to each individual homeschool family to determine which materials - in any category - it should use.

Similarly, though I endeavor to be as accurate as possible, it is incumbent upon each family to do its own research because it's possible that the positions of some of these entities may change over time.

80.	Constitutional Rights Foundation	All new materials produced by the Constitutional Rights Foundation will be aligned as they are written. Existing material will be “retrofitted” to align.
81.	Continental Press	
82.	Core Curriculum of America	
83.	Core Knowledge Curriculum	Based on interviews with students and parents, Core Curriculum of America tailors curriculum packages to meet the needs of individual students. It is possible to acquire completely unaligned packages, as the company offers products from quite a few unaligned publishers. However, the company also utilizes products from many aligned entities (i.e., imprints of Pearson, McGraw-Hill, Harcourt Houghton Mifflin, etc.). Additionally, the company promotes packages that are explicitly aligned with the CCS . Thus, a parent considering Core Curriculum of America and wanting only unaligned material will have to specifically request it and will likely have to personally research the alignment status of anything the company suggests before making a final decision.
84.	CPO Science (School Specialty Publishing)	CPO Science is a School Specialty Publishing product line. School Specialty is aligned with the CCS.
