

THE HOMESCHOOL RESOURCE ROADMAP COMMON CORE PROJECT

EXPLICITLY ALIGNED (changing and/or writing content for CCS/NGSS/C3)

These companies - listed in alphabetical order - have indicated that they have chosen to EXPLICITLY ALIGN their materials with the CCS/NGSS/C3.

Some have made relatively small changes, and others have completely overhauled their products - or were even initially created based on the initiative. However, in all cases, conscious content changes were made to accommodate the CCS/NGSS/C3.

That said, it **must** be noted that the list simply indicates each company's position relative to the CCS/NGSS/C3. The coordinator of the research project does **not** endorse or reprove the use of any of these products and resources; it is up to each individual homeschool family to determine which materials - in any category - it should use.

Similarly, though I endeavor to be as accurate as possible, it is incumbent upon each family to do its own research because it's possible that the positions of some of these entities may change over time.
